

Dear Sir/Madam,

Excellent UK Bluetooth Solutions are currently reaching up to 14,000 potential New Customers every week by delivering specific multi media messaging campaigns direct to bluetooth enabled devices within the surrounding areas.

Imagine the marketing potency that a business owner or organisation could command if they had the facility to deliver specific messages or promotional offers direct to potentially hundreds of customers or clients passing by every day 24/7 365 days per year.

Excellent bluetooth message delivery systems offer business organisations the potential to reach these previously untapped markets or audiences with very specific promotional information or educational messaging campaigns at no additional delivery cost to the business organisation or bluetooth enabled mobile device user.

(This multi media messaging delivery service is free to send and receive)

- **How exciting is this promotional prospect?**
- **How much potential New business revenue and profitably could this bring to your business?**
- **How many thousand clients could your organisation reach with key educational or informative messages to achieve your specific objectives within budgetary restraints.**

Now you can only begin to imagine the huge market potential and reach working in partnership with Excellent Bluetooth Solutions building your business or achieving your organisational objectives using our leading edge state of the art Bluetooth messaging delivery systems.

Make your business an innovative part of what is the future of advertising.

Imagine this Covert Pen sitting in your shirt pocket, standing in your pen pot or lying on the desk no-one will ever notice as you secretly capture their every move.

The built in flash stores the video until it is ready to be downloaded from the pen to a computer via USB, and with 2GB of memory you'll get almost 3 hours of recording time. The pen's colour video is encoded on the fly through a buffer system to MPEG 4 and if the battery runs low during a recording session the Pen will ensure it writes the video from the buffer to flash before shutting down.

Covert Pen video is captured with audio making this the perfect tool for recording confessions, secret rendezvous or interviews. As well as a Covert Pen, it can be utilised as a common *flash drive to transport important files* around safely. The Pen itself is an attractive writing instrument with a gloss black finish and chrome detailing.

This exciting new product has endless applications these include: Mystery Shoppers, Security Door Staff and Community Policing Officers and is an *Excellent* addition to your safety equipment.
